

HOW MANY PEOPLE WORK WITH TWEHA® PRODUCTS WORLDWIDE?

Behind every successful façade project stands more than just a product. It stands a complete network of people, expertise, commitment, and support. At TWEHA®, our strength goes far beyond our internal teams in:

- Production
- Engineering
- Administration
- Logistics

What truly makes TWEHA® unique is the global community of professionals working with our adhesive systems every single day.

A Worldwide Network of “Partners in Bonding”

TWEHA® adhesive systems are distributed worldwide through a carefully selected network of specialized distributors and technical partners.

We proudly call them our: **“Partners in Bonding”**

These partners are not simply distributors. They are experienced façade professionals who actively support architects, façade builders, installers, engineers, and project developers with technical knowledge, training, and practical guidance.

Every partner is selected based on the values that define TWEHA®:

- Knowledge
- Quality
- Reliability
- Long-term commitment
- Customer-focused support

Because at TWEHA®, we believe that supplying adhesive products alone is not enough. True success comes from delivering complete solutions.

More Than Products — A Philosophy

Our ambition is not only to meet expectations, but to exceed them.

That means:

- Reliable adhesive technologies
- Consistent product quality
- Technical support
- Engineering assistance
- Practical training
- Fast logistics
- Local customer service

This customer-oriented structure is only possible because of the strong collaboration with our international partners.

Together, we ensure that façade professionals around the world can confidently work with TWEHA® bonded façade systems.

More Than 2,000 Professionals Worldwide

Today, the TWEHA® philosophy is actively supported and promoted by:

- More than **2,000 professionals**
- Across approximately **60 Partners in Bonding**
- In over **40 countries worldwide**

This global network includes specialists in:

- Façade engineering
- Project management
- Technical sales
- Application support
- Logistics
- Installation and execution

Every one of these professionals contributes to the growth of safe, durable, and sustainable bonded façade technology.

Growing Together Sustainably

At TWEHA®, we strongly believe that sustainable growth is built on long-term relationships, technical expertise, and mutual trust.

That is why we continue investing in:

- Education
- Technical innovation
- International partnerships
- Product development
- Customer support

Because behind every successful bonded façade stands not just an adhesive system — but an entire international team committed to quality and reliability.

And that network continues to grow every day.

TWEHA®, 2026
